PRODUCT DESIGNER (7 YRS OF EXP.)

PROFILE

Hello there! I'm a French (Mid-Level) Product Designer specialised in User Experience and with some knowledge on UI Design and Front-End development. Passionate about the fields of Interaction and Accessibility, I'm aiming to put user-centric design first and apply best practices anywhere/anytime it's possible. I work mostly in remote (preferred), but meeting users and coworker is great too!

WORK EXPERIENCE

Masteos / Product Designer

DECEMBER 2021 - SEPTEMBER 2023, PARIS

As a PrD, I contributed to the **design of a mobile application for real estate investment**. My role included **user needs analysis**, creating **wireframes and interactive mockups**, and **collaborating** with developers and other designers.

I worked on projects such as **redesigning the investment simulation process** and **creating a personalized dashboard** for each user.

Redfabriq / UX Designer

APRIL 2019 - NOVEMBER 2021, PARIS

Here are some notable projects/**start-ups**:

- KIRRK : A **car rental platform** aimed at connecting businesses and professionals.
- Mobioos : A **no/low-code** tool focused on **artificial intelligence** solutions for developers.
- Qomben : A digital solution designed to **manage compensation and benefits strategies** for companies.

Freelance / UX & UI Designer

SINCE SEPTEMBER 2018, REMOTE

As a Freelance, I have worked on various projects in the field of **recruitment and psychometry**.

Ankama / UX Designer (Internship)

MARCH 2018 - AUGUST 2018, LILLE

Improvement and optimization of **ergonomics** and overall **user experience** on various interfaces. This work was primarily done on the **video game** Dofus, as well as other games from the company (Wakfu, Krosmaga, Dofus Donjons).

Keluro / UX & UI Designer (Internship)

FEBRUARY 2017 - JUNE 2017, PARIS

Ergonomic and aesthetic optimization of their **intelligent email management and sharing solution**.
